Steamer day-to-day. Oregon to arrive; State of California to sail.

Services of the Methodist Episcopal church in the Baptist church today at the usual hours.

The Archer and North Bend were taken to bar anchorage yesterday but were unable to proceed to sea.

The steamer Ordway arrived from Portland yesterday with 20,000 feet of lumber for Megler & Wright, for the addition to the Occident hotel. The work will be commenced in about a week.

The British bark Archer, Mariner master, has cleared with 12,071 cents of Walla-walla wheat, valued at \$15,500, and 1,432,360 pounds of Salem bakers' flour, valued at \$31,060 for Liverpool. The Salem Flouring Mills company is the consignee.

At a meeting of the Astoria Dramatic association, on Friday evening, a vote of thanks was unanimously tendered the Young Men's Western band for the kind assistance rendered by them in playing for the entertainment given Monday evening last.

Some of the wharves along the city front are in a very bad condition and the attention of the owners should be called to the imminent danger to which people are subject when near these places. We hear of several accidents which have been met with lately, some of which were quite serious.

Two men, whose names we were unable to learn, while engaged in the construction of the foundation for the new cannery of Messrs. C. Timmons & Co., at upper Astoria, met with a severe and almost fatal accident on Friday by falling from the scaffold into the water. It was only by the immediate assistance of workmen near by that they were saved. One was almost entirely exhausted when rescued, owing to the swift current.

See notices of sealed proposals in another column to-day. Mr. J. W. Welch will construct a large store building corner of West-eight and Water streets which will be occupied about April 1st as a drug store by Mr. J. W. Conn. Mr. Louis Kirchhoff will construct an elegant residence corner of Olney and Court streets, which will be occupied by Mr. A. W. Berry. Several other new buildings are contemplated and will be in course of construction soon.

The steamer John Nation, recently fitted up at Portland, arrived down yesterday afternoon. She is owned by Messrs. Jas. Fairfowl, Jr., and Robt. Trenchard and will be used as a dairy boat. Messrs. Fairfowl and Trenchard have leased the Johnson farm on Lewis and Clark river, and will immediately enter the dairy business. The steamer is thirty feet long and seven feet beam, is of fine model and said to be powerful for her size. She made the trip from Portland to Astoria in nine and one-half hours.

News from Tillamook.
An occasional correspondent of THE ASTORIAN, writing from Kilehis post-office, Tillamook county, Oregon, sends us the following items:
We have a literary society at Kilehis, where both old and young meet every Saturday night. Reading, recitations and vocal and instrumental music are the principal features of the society. A paper called the Kilehis Advance, edited by Mr. C. Pye, is read at those meetings semi-monthly. Mr. Pye takes great pride in the matter and makes the paper quite interesting.
It is hoped that the contemplated survey of the narrow gauge railroad from Grand Ronde through Tillamook to Astoria will be found practicable, and the work of building the road soon commenced. There is a vast amount of coal in this section which must be taken out sooner or later.

Mr. Henry Weatherly, who was drowned February 12th, while fording Kilehis river on horseback, was on his way to California. He was found a short distance below in about ten feet of water. Mr. George Fuller, justice of the peace, and acting coroner, was notified and immediately summoned a jury who returned a verdict in accordance with the facts, and the body was given christian burial. Mr. Weatherly came to Tillamook last summer, for the purpose of locating. And had selected a claim on lower Nehalem river. It is said he leaves a family in California. He was a man about twenty-six years of age.

The Harvest Queen, which was so successfully brought over the falls, goes temporarily on the route from the Dalles to the Cascades.
A meeting of the board of pilot commissioners of Washington territory, for the Columbia river and bar, was held at Kalama on Wednesday last.

The Oregon Improvement company has made a contract with the Central Pacific Railroad company of California, to furnish the latter with all the coal used on the road for the coming year. The supply will come from the New Castle mines, near Seattle, recently purchased by the Improvement company.

Correspondents should bear in mind that all matters should be accompanied by the authors full name. Correspondence concerning personal wrongs or such matters as are of no interest to any one, but are likely to offend some one, are generally consigned to the waste basket. Correspondents should avoid this character of news, unless it is of sufficient consequence to be readable.

The people of this city and vicinity should have few complaints to make, if any. During the recent storms and cold spells at Walla-walla and other points on the upper Columbia wood was sold as high as \$16 per cord, and in some places was almost entirely exhausted. In Astoria the price has been the same as heretofore, with enough wood near by to supply the city for a long time.

The second inquest held on the body of the unknown man washed ashore at Port Orford, revealed the fact that it was that of a man named William Black, about thirty-five years of age, and that his death was caused by violence. A fracture of the skull and a knife wound were discovered. The jury returned a verdict that he came to his death at the hands of parties unknown.

Mr. Joseph N. Prescott, the father of Mrs. Harriet Prescott Spofford and Mary N. Prescott, died January 22d, at the residence of his son-in-law Hon. Richard S. Spofford, in Newport, Massachusetts, in his seventy-fourth year. He was a native of New Hampshire, and was the grandson of Judge Newmarch, and grandnephew of Sir William Pepperell. He was among the Pacific coast pioneers of 1849, and was one of the founders of Oregon city, of which place he was thrice elected mayor.

Mr. Frank Keeler closed out his extensive stock of silverware and dry goods at auction last evening. He announced that it is his intention to return to this city some time in April next with a large stock of earthenware, China and glassware, etc., which he intends to dispose of at public auction. Mr. Keeler gave to fifty-three ladies in attendance at his sale on Friday evening a gift ticket bearing a number and announced that similar numbers would be placed in a box and one taken out by a little girl, and the lady having that ticket would receive an elegant gift. Mrs. John Douglass held the lucky number, and at the drawing yesterday afternoon was presented with a beautiful silver mounted toilet set.

A striking example of the effects of civilization upon the Chinese is found in the case of Lee Sam, the merchant who left Portland defaulting by about \$100,000. The job was done in the most scientific way, and is indubitable evidence that he has been a close observer of the methods and manners of the American citizen.

From a Prominent Physician.
Washingtonville, Ohio, June 17th, 1880. HORSE

And his Diseases, by
B. J. KENDALL, M.D.
Full of Valuable and Practical Information, and Containing an INDEX OF DISEASES.

Which gives the symptoms, cause and the Best Treatment of each; a table giving all the principal drugs used for the Horse, with the ordinary dose, effects, and antidote when a poison; a table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse; 65 engravings showing the important points in the structure of the horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.
EVERY FARMER SHOULD OWN THIS BOOK.

Thousands who have seen it commend it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00. Do not throw away your money in the purchase of costly books on the Horse, which are so full of Latin phrases and technical terms as to be unintelligible to the average reader but,
BUY KENDALL'S TREATISE.
A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost. Having examined this book thoroughly we are satisfied no

HORSE-OWNER
Would hesitate a moment about investing 25 cents in its purchase, if he did not know the value of its contents. Recognizing the desirability of having such practical information as our farming friends daily need in their business, provided at reasonable cost instead of being obliged to pay the enormous profits demanded by the Publishers of most Agricultural Books, we have secured
